

Ryke AI — How We Will Build It

A step-by-step execution plan showing exactly how your idea becomes a working product — no complexity, just clarity.

SIMPLE EXECUTION PLAN

The Vision: Wellness via SMS

Ryke AI launches as a **simple SMS-based AI wellness mentor** — no app download, no complicated setup, no friction.

Real coaching through simple SMS conversations

Phase 1 — Core Build Overview

Phase 1 is laser-focused: build only what's needed for a real, working experience. No distractions, no over-engineering.

What We're Building

- Landing page + signup website
- SMS onboarding system
- AI chat via SMS
- Basic recommendation engine

What Users Can Do

- Sign up on the website
- Receive a welcome SMS from Ryke
- Start chatting instantly
- Get fitness & wellness guidance by text

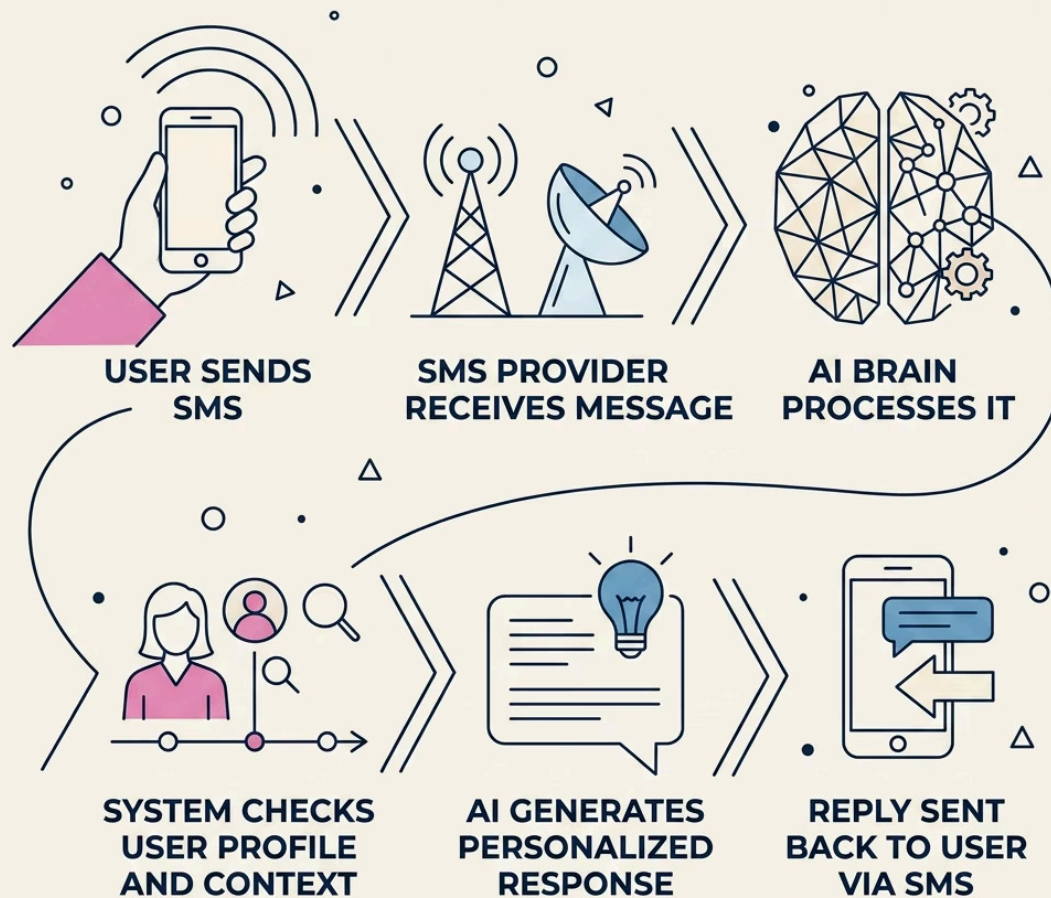

The User Journey — Step by Step

From first visit to first conversation in under two minutes. The entire experience is frictionless by design.

✓ No app. No login. No complexity. Just a conversation.

How It Works Under the Hood

Simple by Design

The user only ever sees one thing: a natural conversation. Everything else — routing, processing, memory — happens invisibly behind the scenes.

i The system is built to feel like texting a real coach.

System Architecture at a Glance

The entire technical stack reduces to one elegant loop — a message in, intelligence applied, a reply out.

Key insight: The user only ever sees the conversation. All complexity is hidden. The system feels effortless because the architecture was built that way from day one.

Phase 1 Scope — What's In, What's Out

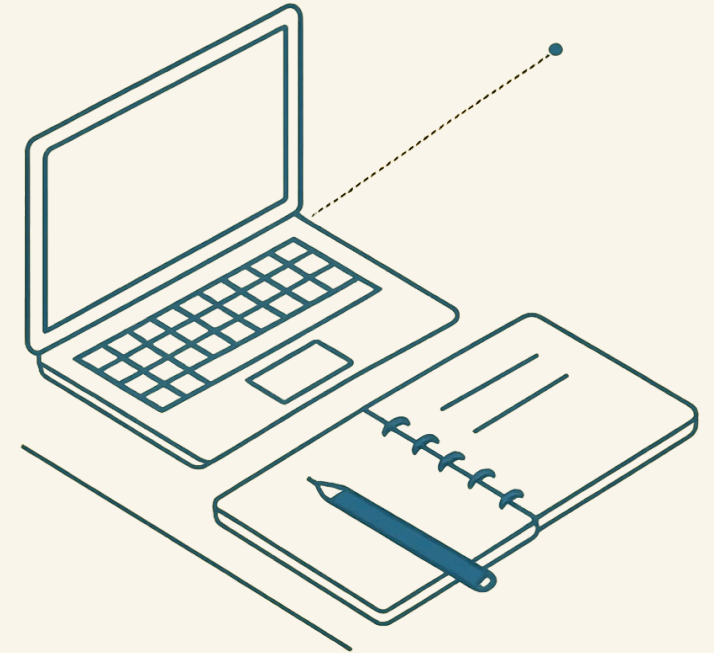

✓ Included in Phase 1

- SMS chat system
- AI responses based on user input
- Basic fitness & wellness recommendations
- Simple user memory (goals & preferences)

✗ Not in Phase 1

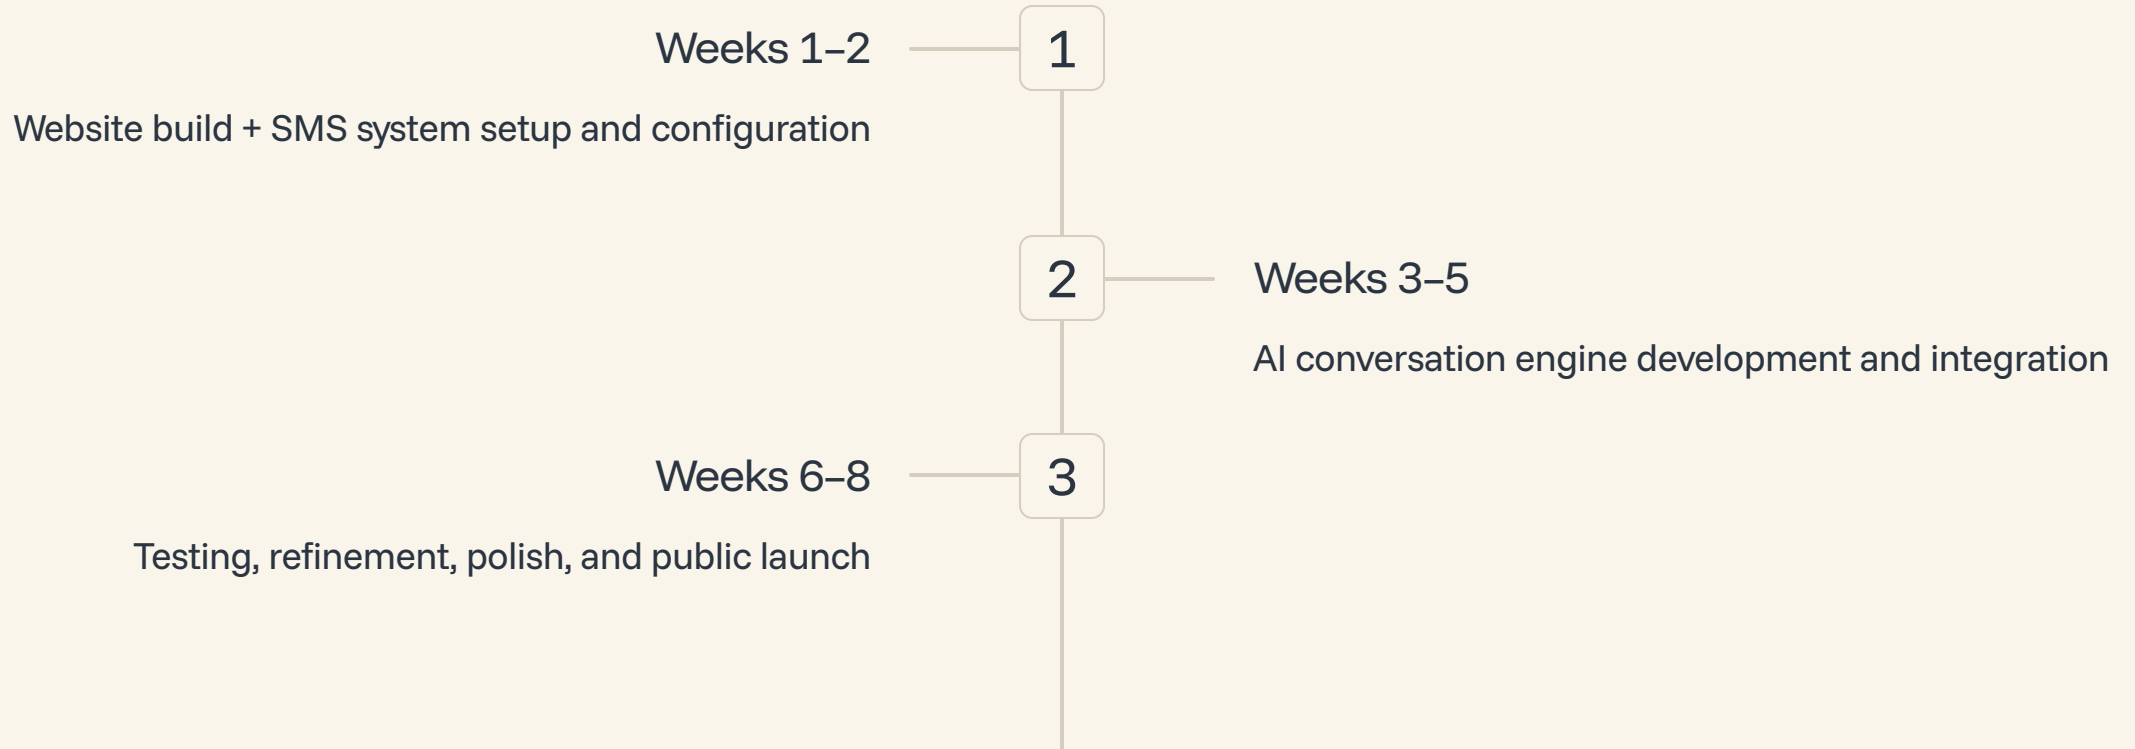

- Mobile apps (iOS / Android)
- Wearable integrations
- Advanced analytics dashboards

📄 Keeping scope tight ensures fast delivery and a clean MVP.

Timeline & Delivery

Phase 1 is designed to move fast — from kickoff to launch in 4 to 8 weeks, with clear milestones at every stage.

✓ Total Phase 1 Duration: **4–8 weeks** from kickoff to live product.

Phase 1 Investment

\$4,500–
\$6,000

Total Phase 1 build cost

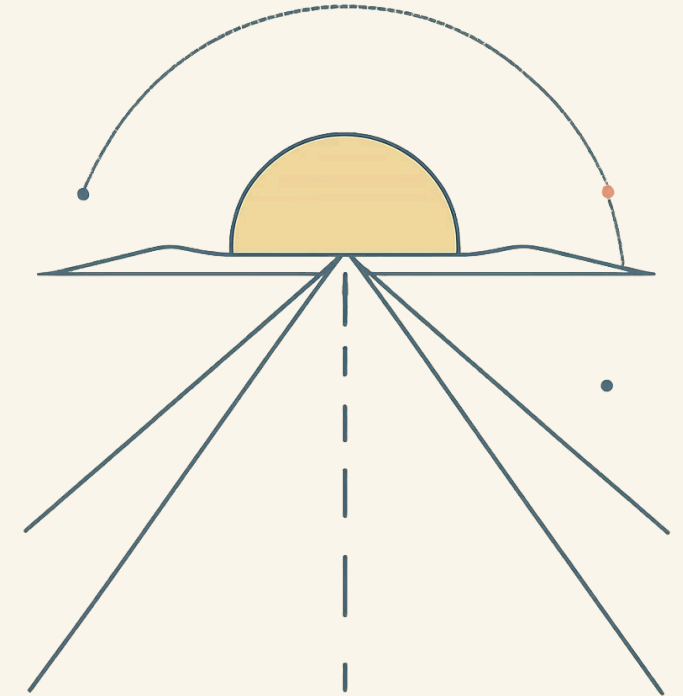

What's Covered

- Full SMS system setup and configuration
- AI integration and conversation engine
- Website design and onboarding flow
- Basic recommendation engine

A complete, working MVP — ready for real users — at a fraction of typical development cost.

The Road Ahead — Future Phases

1	Phase 2 — Deep Integration Wearable sync (Apple Watch, Fitbit), real-time health data, and advanced personalization based on biometrics.
2	Phase 3 — Ecosystem Scale Coach dashboard, multi-user scaling for thousands of active users, and sophisticated AI personalization at scale.

The Final Vision

Ryke AI begins with radical simplicity — and grows into something much bigger.

One Website

The single front door to your wellness journey

One Phone Number

The only thing a user needs to get started

One Conversation

The beginning of a full AI coaching ecosystem

Start simple. Prove value. Then grow into a **full AI wellness coaching platform** — one text at a time.

Ready to Build?

The plan is clear. The scope is defined. The timeline is realistic. Ryke AI is ready to go from idea to live product.

- Scope is locked
Phase 1 is well-defined with zero ambiguity
- Timeline is realistic
4–8 weeks to a live, working MVP
- Investment is fixed
\$4,500–\$6,000 — no surprises

✓ Let's build Ryke AI. The only next step is saying yes.
